

PRESS RELEASE

Anthos Fund & Asset Management is B Corp certified

Amsterdam, 22 October 2024 - Anthos Fund & Asset Management (Anthos), a values-based asset manager, is pleased to announce it is now B Corp certified – a globally recognised measure of overall social, environmental and economic impact.

Anthos joins the growing B Corp movement of 9000 companies worldwide, including over 400 in Benelux, that are actively promoting a more sustainable and fair society. The certification is based on a long-term commitment to greater sustainability, since companies certified as B Corps must be recertified every three years.

Jacco Maters, CEO, Anthos Fund & Asset Management: "As a responsible investor, we passionately believe – and have shown - that stellar financial returns are possible while upholding our values of sustainability, human dignity and good corporate citizenship. We are proud to receive B Corp certification as recognition of our efforts to date, as we strive to continuously improve our positive impact in the years to come. Thank you to our valued clients for their continued support."

The B Impact Assessment evaluated how Anthos' operations and business model impact employees, the community, environment and clients. The certification process was rigorous and lengthy, with applicants required to reach a minimum benchmark score of 80 while providing firm evidence of socially and environmentally responsible practices. Anthos scored a total of 107.4 across all impact areas, which is published in [B Corp's global directory](#).
